

I am part of the ANSWER

By: Baguma Allen Komugisha

A bold future

"To prepare and empower the current and posterior generations towards responsible leadership, prosperity and modern development".

Becoming Part of the Future

Nehemiah 1:2-4,

- Embracing the vision
- Being burdened with achieving the vision
- Do you feel the cause as real?
- Is the hope big for you to take part?
- Is it worth your concern?
- If yes then ask yourself, What is my role in insuring that Young Forum achieves that vision?

Owning the Future

- *Nehemiah 2:1-5*
- I can only scratch the surface in outlining the problem as I see it, and will go no farther
- However with collective effort we can **EACH** scratch our part & together each achieves **MORE**
- Each in his own field needs to identify what they can best contribute (when, where and why)
- What must I do to reverse the trend of leaders and leadership falling from grace?

Price am willing to pay?

- What is the price you are willing to pay?
John 3:16 “ For God so loved the world that he gave.....”
- What has God given you? Exodus 4:2-4
- Doing nothing is a liability (debt/interest) we accumulate for payment latter in our lifetime
- Remember service is the rent we pay for being on earth

Discovering Strategies to achieve the intended future

Nehemiah 2:12

- The best way to predict the future is to invent it
- If you want to be part of the solution, get involved
- Identifying your great area of influence
- What is the Potential within you which you can offer to be part of the intended future

Dealing with Distractions

Nehemiah 4:1-3

- Fear and self doubt
- What change can I probably make?
- It's a new concept
- Afraid of the challenges & commitments
- But that requires time!!!!!!!
- What will I benefit anyway?
- But why,

"You cannot discover new oceans unless you have the courage to lose sight of the shore"

Taking Actions

- Doers of the word rather than hearers of the word
- What can I do?
- Action is and always has been the name of the game, at least as far as the real movers and shakers of the world are concerned
- Andrew Jackson reminds us all,
“ *Take time to deliberate; but when the time for action arrives, stop thinking and go in. And get busy making something happen!*”

An Appeal

- We have envisioned the future
- We have shared with you the future
- We believe you are part of the answer
- One day you will look back and say I heard the call, I fulfilled the promise, I did my part and Created Change
- Leaders don't know everything , but they know enough to act
